*A web application that helps you bookmark future travel destinations or document where you've been.*

- Account creation through Google Auth.
  - Database management with Mongoose and MongoDB Compass.
  - Front end components rendered with the React Materialize package.
  - Made with React and powered by Heroku.
- 

## WORK EXPERIENCE

**Shift Supervisor, Rite Aid Pharmacies** | July 2016 to Present | *Portsmouth, NH*

Ensured an organized and efficient workplace while staying familiar with current sales promotions. Daily activities include customer service, team management and store supervision.

**Sales Associate, iMobile** | September 2015 to June 2016 | *Newington, NH*

Promoted sales of all iMobile trusted phone brands and subscription plans. Frequently worked with network subscribers to troubleshoot technical problems over the phone and in person.

**General Staff, On-Site Family Martial Arts Center** | August 2015 to June 2016 | *Newington, NH*

Responsible for studio office organization. Part time class instructor. Helped optimize the studio's online communications and improve social media presence by updating office software and digital tool set.
